MESSAGE

Dear Students, Parents, and Well Wishers,

Greetings from The Paradise International.

We shall welcome the month of August with our hearts filled with pride and patriotism. The middle of the month shall witness the celebration of the freedom our forefathers have achieved for us. Our independence shall remind ourselves the courage and sacrifice of not only the great leaders, who took leadership roles, but every Indian in every nook and corner of our country who fought to achieve freedom for India from the colonial rule.

We are all called upon to reflect on our history and adore the sacrifice and live our present with pride and take steps to shape our future. Let us continue to cherish the freedom that we have today, which is nothing but the extraordinary acts of Indians, with their unwavering determination have dreamt for our future. At the Kohima War Cemetery in Nagaland, probably the heart and mind of our freedom fighters is borne in the inscription, "When you go home tell them of us and say, For your tomorrow, We gave our today." Yes, dear friends, let us recollect the words of Netaji Subhas Chandra Bose, when he motivated the Indian National Army, "Give me blood, and I shall give you freedom." These words continue to instill in us the importance of being responsible citizens of this great nation.

In a similar manner, our young freedom fighter Bhagat Singh, who sacrificed his life said, "They may kill me, but they cannot kill my ideas. They can crush my body, but they will not be able to crush my spirit." The spirit of freedom of India is a result of great sacrifices and we need to safeguard it with utmost will and dedication. As young people it is important to ensure that this legacy lives on with national pride and respect for the tenets of our Constitution. Let us take a resolution to make very meaningful contributions to the growth of our country and protecting its pride.

As we celebrate our Independence, let us keep in mind that freedom is complete when we fulfil our responsibilities as citizens. We need to forget all our differences and work for peace and progress of India. Jai Hind!

With warm regards,

Dr S Isias
Dean and Principal
